## SAFETY DATA SHEET

In accordance with the requirements of US 29 CFR Parts 1910, 1915, and 1926.

Version 3.0

Revision Date 21 MAR 2022

#### Hazardous components

Component	CAS-No.	Concentration [%]
Propanol, 1(or 2)-(2-methoxymethylethoxy)-, acetate	88917-22-0	50.00 - 70.00
(R)-1-methyl-4-(1-methylethenyl)-cyclohexene	5989-27-5	1.00 - 10.00
3,7-dimethyl-1,6-octadien-3-ol (= Linalool)	78-70-6	1.00 - 10.00
Benzoic acid, phenyl methyl ester	120-51-4	1.00 - 10.00
2-hexyl-3-phenyl-2-propenal (trans & cis)	101-86-0	1.00 - 10.00
2-tert-butylcyclohexyl acetate	88-41-5	1.00 - 10.00
3,7-Dimethyl-2,6-Octadienal (Cis & Trans Isomers) (= Citral)	5392-40-5	1.00 - 10.00
2,6,6,8-tetramethyl-9-acetyl- tricyclo{5.3.1.0(1,5)}undec-8-ene	32388-55-9	1.00 - 10.00
2-acetyl-1,2,3,4,5,6,7,8-octahydro-2,3,8,8-tetra- methylnaphtalene (main isomer)	54464-57-2	1.00 - 10.00
(2E)-3,7-dimethyl-2,6-octadien-1-ol (= geraniol)	106-24-1	1.00 - 10.00
3-hydroxy-2-ethyl-4H-pyran-4-one (=ethyl maltol)	4940-11-8	1.00 - 10.00
1,1-dimethoxy-2,2,5-trimethyl-4-hexene	67674-46-8	1.00 - 10.00

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

## **SECTION 4. FIRST AID MEASURES**

#### First aid measures

#### Description of first aid measures

General advice	: Consult physician or Poison Control Center. TheNational Hotline for US Poison Control Centers is 1.800.222.1222; https://www.poison.org
If inhaled	: Get to fresh air immediately. Consult Poison Control Center or physician if any symptoms develop.
In case of skin contact	<ul> <li>Rinse immediately with plenty of water for at least 15 minutes. If skin irritation occurs, seek medical advice/attention. Remove contaminated clothing and shoes. Immediately seek medical attention if chemical entered ear canal. When symptoms persist or in all cases of doubt seek medical advice.</li> </ul>

## SAFETY DATA SHEET

In accordance with the requirements of US 29 CFR Parts 1910, 1915, and 1926.

nd 1926.	
ersion 3.0	Revision Date 21 MAR 2022
In case of eye contact	: Remove contact lenses. Immediately flush eyes for at least 15 minutes. Get medical attention.
If swallowed	: Do NOT induce vomiting. Immediately consult Poison Control Center or physician.
ost important symptoms an	d effects, both acute and delayed
Causes skin irritation. May cause an allergic skin rea Causes serious eye irritation.	action.
dication of any immediate n	nedical attention and special treatment needed
no data available	
<b>xtinguishing media</b> Suitable extinguishing media :	: Water spray Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	: High volume water jet
becial hazards arising from	the substance or mixture
Specific hazards during firefighting	<ul> <li>Do not use a solid water stream as it may scatter and spread fire.</li> <li>Cool closed containers exposed to fire with water spray.</li> <li>Do not allow run-off from fire fighting to enter drains or wate courses.</li> </ul>
lvice for firefighters	
ivide for menomers	
Special protective equipment for firefighters	: Wear self-contained breathing apparatus for firefighting if necessary.
Special protective equipment	

## SAFETY DATA SHEET

In accordance with the requirements of US 29 CFR Parts 1910, 1915, and 1926.

Version 3.0

Revision Date 21 MAR 2022

Remove all sources of ignition.
Evacuate personnel to safe areas.
Keep people away from and upwind of spill/leak.
In the case of vapour formation use a respirator with an approved filter.
Use personal protective equipment as required.
For emergency conditions, use an approved positive-pressure self-contained breathing apparatus.
Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas.
Material can create slippery conditions.

#### **Environmental precautions**

Retain and dispose of contaminated wash water. The product should not be allowed to enter drains, water courses or the soil. Dispose of in accordance with local regulations. Local authorities should be advised if significant spillages cannot be contained.

#### Methods and materials for containment and cleaning up

Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

Keep in suitable, closed containers for disposal.

Clean contaminated floors and objects thoroughly while observing environmental regulations.

## SECTION 7. HANDLING AND STORAGE

#### Precautions for safe handling

Advice on safe handling	: Avoid contact with skin and eyes. Open drum carefully as content may be under pressure. Keep away from heat/sparks/open flames/hot surfaces. No smoking. When using do not eat, drink or smoke.
Advice on protection against fire and explosion	: Keep away from heat and sources of ignition.
Conditions for safe storage, include	uding any incompatibilities
Requirements for storage areas and containers	<ul> <li>Keep container tightly closed in a dry and well-ventilated place.</li> <li>Containers which are opened must be carefully resealed and kept upright to prevent leakage.</li> <li>Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.</li> </ul>

### SAFETY DATA SHEET

In accordance with the requirements of US 29 CFR Parts 1910, 1915, and 1926.

#### Version 3.0

Revision Date 21 MAR 2022

Further information on<br/>storage conditions: Ambient / 10-30°C (5 0-85°F)<br/>Dry, well ventilated, preferably full, hermetically sealed<br/>: Protect against light.

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Exposure Guidelines

Components	CAS-No. :	Type:	Value :	Basis :	Revision:
(R)-1-methyl-4-(1- methylethenyl)- cyclohexene	5989-27-5	TWA	30 ppm	US WEEL	2016-08-17
3,7-Dimethyl-2,6- Octadienal (Cis & Trans Isomers) (= Citral)	5392-40-5	TWA	5 ppm	ACGIH	2014-03-01
	DSEN: Dermal Sensitization URT irr: Upper Respiratory Tract irritation eye dam: Eye damage body weight eff: body weight effects Skin: Danger of cutaneous absorption				

Exposure Assessment: Exposures are dependent on the product being handled, the potential for chemical release, and any resulting airborne concentrations or dermal contact. Since product handling and release scenarios vary, and no two workplaces are exactly alike, it is recommended that the potential for exposure be assessed prior to the product's use or introduction. Exposure assessments should be performed by an occupational hygienist, industrial hygienist, or other qualified occupational or environmental health professional. An exposure assessment should be conducted to determine the efficacy of any ventilation and the need for additional respiratory protection.

#### **Engineering measures**

Ventilation: Use engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposures limit requirements or guidelines, use only with adequate ventilation. Local exhaust ventilation may be necessary for some operations.

#### Personal protective equipment

Protective measures	: Choose PPE based on a hazard assessment, taking into account to the concentration and amount of dangerous substances, and to the specific work-place conditions.
Eye protection	: Ensure that eyewash stations and safety showers are close to the workstation location. Wear chemical splash goggles (non-vented) with faceshield.

In accordance with the requirements of US 29 CFR Parts 1910, 1915, and 1926.

d 1926.				
raion 2.0	Devision Date 04 MAD 0000			
rsion 3.0	Revision Date 21 MAR 2022			
Hand protection	: Wear impervious and chemical resistant gloves suitable for this material as determined by a hazard assessment. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.			
Skin and body protection	: Wear protective clothing suitable for this material as determined by a hazard assessment.			
Respiratory protection	: Respiratory protection should be worn when workplace exposures exceed exposure limit requirements or guidelines. If there are no applicable exposure limits or guidelines, use an approved respirator where there is a potential for adverse effects, including but not limited to respiratory irritation or odor, where indicated or required by the exposure assessment. Selection of air-purifying or positive-pressure supplied air will depend on the results of the exposure assessment which includes an evaluation of the specific operations and the actual or potential airborne concentrations. The type of car- tridge or filter to be used must be selected and approved for the chemical, class, or classes of chemical(s) likely to be encountered in the workplace. For emergency conditions, use an approved positive-pressure self-contained breathing apparatus.			
Hygiene measures	<ul> <li>Handle in accordance with good industrial hygiene and safety practice.</li> <li>Remove contaminated clothing and protective equipment before entering eating areas.</li> <li>Wash hands before breaks and immediately after handling the product.</li> </ul>			
See Section 16 for further information.

We recommend that each recipient or user of this SDS carefully study this document and consult with the appropriate expert (i.e., industrial hygienist, toxicologist, or occupational physician) to understand and appreciate the technical data, any associated hazards, and appropriate control measures needed to ensure the safe handling and use of this product. The above information relates only to this product and not to its use in combination with any other material or in any particular process. The above information is based on data provided by and collected from recognized sources such as distributors, manufacturers and technical groups and is considered to be accurate to the best of our knowledge as of the date of this document. Since the conditions of handling and use are not within the knowledge of

In accordance with the requirements of US 29 CFR Parts 1910, 1915, and 1926.

Version 3.0

Revision Date 21 MAR 2022

Trapp, it is the responsibility of the recipient to conduct an appropriate hazard assessment and to review all information about this product and determine its safety and suitability in their own processes and operations.

Appropriate warnings and safe handling instructions should be provided to all handlers and users, taking into account the intended use and the specific conditions and factors relating to such use.

Version : 3.0 Revision Date : 21 MAR 2022
