

Blue Star Sour

Blue Star Sour

Blue Star™ is a mild, yet very effective neutralizer to counteract alkalinity in the wash cycle and prepare textiles for the next processing step.

- Safe for use on most garments or textiles
- The perfect complement to StarPower™ or any of our detergent systems
- Blue in color for added safety and brightening!

NOW also available in a 25# pail!

General Usage Instructions:

1. 1-2 oz per 50lb added to final rinse
2. Low water level
3. 5-7 minutes agitation
4. Drain and extract normally
5. Always test final pH prior to press - 6.0 to 6.5 range optimal
6. Store in cool dry place
