

## ***Collars & Cuffs***

### Collars & Cuffs

An all purpose concentrated laundry spotter that eliminates collar and cuff soil without scrubbing. This unique surfactant based solution is also effective on stains such as butter, grease, oil, shoe polish, food, lipstick, make-up and some proteins.

For collars and cuffs, simply apply to soiled area, rub lightly to saturate stain, and wash as usual. No scrubbing is normally needed.

For extra tough stains which do require scrubbing, Collars and Cuffs may be diluted 50% with water for spray or brush application.

Collars and Cuffs may also be used as an effective spotter on dry clean garments.\* Apply a small amount on stain, rub or tamp lightly - do not steam or blow out - and process as usual. Collars and Cuffs will not affect most solvents or clog filters.

\*As always, test fabrics in inconspicuous place for color and material integrity.
