

TECHNICAL BULLETIN

GBS06 Industrial Booster

DESCRIPTION

GBS06 is a concentrated solvent and surfactant-based degreaser. An integral part of our institutional mix of products, GBS06 is best in laundry operations dealing with medium to heavy industrial soils. It will upgrade and protect the cleaning efficiency in these operations. It is also an excellent option in fire gear and fire restoration operations!

FEATURES

- TARGETED BLEND OF SOLVENTS
 - CONCENTRATED NONIONIC SURFACTANTS
 - PLEASANT FRAGRANCE
 - COST EFFECTIVE TO USE
-

BENEFITS - When used in conjunction with our Detergent Systems:

- Surfactants work more efficiently - Solubilizes grease and oils and helps dissolve solid soils.
 - Increases Soil Suspension and eliminates Redeposition – Less Reruns & Spotting.
 - Reduces steps and formula time – Boosts efficiency saving valuable resources, labor, and utilities.
 - Textiles Smell Cleaner - No harsh odors associated with some solvents.
